

Managed Staff Bank services

Medacs Healthcare have recently been awarded a position on the new framework to provide staff bank managed services on behalf of Trusts, designed to use our recruitment and process expertise to drive efficiencies to internal staff banks offering a more cost effective way to manage your flexible workforce.

In providing a fully managed staff bank service Medacs Healthcare will be targeted on reducing agency usage, increasing supply & quality of bank staff, improving best practice governance and local relationship management.

'Working in partnership with Trust's is key in order to understand, review and enhance current working practices. Utilising our expert workforce in this targeted approach will deliver a reduction in overall expenditure helping achieve real cost savings'

Andrew Turner
Head of Staff Bank Services

Why outsource to Medacs Healthcare?

- A focus on quality
- Compliance management
- Integrated IT solution
- Efficiency gains
- Agency & payroll management

Quality

A critical aspect of running any staff bank is having the right mix of appropriately skilled candidates to meet requirements.

Our recruitment processes ensure that we only recruit quality candidates to ensure the highest standards of care are delivered to your patients.

In 2009 we recruited over 13,000 Candidates across our businesses.

Compliance and governance

Medacs Healthcare will work in partnership with Trusts to ensure their flexible workforce meets statutory and regulatory requirements to minimise risk and provide quality care to their patients

Medacs Healthcare have in-house expertise in supporting Trusts achieve NHS Litigation Authority Standards.

Agency management

Medacs Healthcare has extensive experience in managing temporary staffing agencies through the host of Master Vendor contracts held across our business.

One of our main objectives in managing a staff bank service will be to reduce the use of and reliance on temporary staffing agencies

Within our Staff Bank Services Divisions we have a wealth of experience in supporting Trusts meet this objective whilst maintaining quality of service.

Integrated IT

Medacs Healthcare have partnered with Allocate Software PLC, the leading technology provider within this niche area.

This provides us with an established and approved system that not only provides all the functionality required, it enables us to interface with Trusts E-Rostering and ESR facilities.

Management information

The provision of detailed, comprehensive and high quality management information and KPI reporting is one of the main cornerstones of the Managed Staff Bank Service.

Efficiency gains

The combination of our technology solution and Medacs Healthcare's experience in temporary staffing and understanding of the requirements of Trusts will drive efficiencies and savings to your Trust.
